Welcome to Israel

Summer is coming soon, many people want to take a vacation and be on a beautiful beach. Recently, a very fashionable and beautiful destination is Georgia. You can also consider a vacation in Israel, but there have been cases when visitors to Israel were not allowed to enter Israel and were deported from Israel during border control.

Arrival at the airport

In recent years, many tourists from Russia, Ukraine, Georgia, Moldova and other CIS countries have been staying in Israel illegally and looking for illegal work.

There are a lot of illegal migrants from the CIS countries in Israel

Border guards in Israel began to study in more detail the purpose of the arrival of tourists from the CIS countries and those who were suspicious and did not look like tourists were not allowed to enter Israel and were deported from Israel.

But there is always a way out of the situation, and I think the best option is for the State of Israel to implement this system, which will improve the control of Israel's borders and there will be no more deportation from Israel when arriving in Israel.

2.3 If the Ministry of the Interior, the Migration Service or the Border Service of Israel grants permission to enter Israel, the person's email address and account will receive this official permission with a special barcode and codes indicating the details of the person who is allowed to enter Israel. They must have this printed authorization when boarding a flight to Israel. A foreign national who does not have this official permission to enter Israel will be denied boarding a plane that is flying to Israel.

If this will be a more convenient mechanism for controlling visitors to Israel, you can create a list of countries where the most visa violators come from and require them to have this official permission to enter Israel.
